Iris Bargains for Season of 1942

Iris prices will be higher instead of lower. It is inevitable with prices of everything going up. Wholesale growers of nursery stock have already announced advances up to 50%, so take advantage of these bargains while you may. All of these plants will be freshly dug for each order and shipped direct from my Iris Ranch, located in the famous fertile Yakima Valley at Grandview, Washington. Each plant will be labelled. Three of a kind planted together gives the finest effect.

IRIS BARGAIN No. 5 18 DYKES MEDAL WINNERS—\$3.50 (Catalogue Value—\$5.90)

ALL DIFFERENT, EACH PLANT LABELLED

The Dykes Medal is the highest honor that can be given to any Iris. It is awarded annually to the one best Iris of the year by a committee of competent judges appointed by the American Iris Society. (In former years England and France have also each awarded one Dykes Memorial Medal each year.) A variety winning the Dykes Memorial Medal is therefore a variety of outstanding merit and a collection of 18 of them is

AN 18 TIME GRAND AWARD WINNER.

This group of 18 varieties recently sold for more than \$500.00, but mass production methods have brought them down where all may now enjoy their grandeur at a modest cost.

3 of Each \$9.00

IRIS BARGAIN No. 6 18 OTHER MEDAL & CUP WINNERS, \$2.75 (Catalogue Value — \$4.35)

ALL DIFFERENT, EACH PLANT LABELLED.

These 18 varieties were selected from among thousands to be awarded cups or medals by competent Iris experts who were the official judges. Awards are given only to horticultural products of outstanding merit. Considering the fact that several thousand Iris have been originated to date, comparatively few of superlative merit have achieved this enviable distinction. Here are 18 of them assembled for your special benefit for the modest price of \$2.75. These added to the Dykes Medal Group will give you a Grand All Medal Collection.

3 of Each \$7.00

IRIS BARGAIN No. 7 22 AUTUMN FLOWERING IRIS—\$3.75 ALL DIFFERENT, EACH PLANT LABELLED (Catalogue Value — \$5.15)

This is a superb collection of those varieties that flower two or more times each season, once in the early Spring ahead of the tall Bearded Iris and once in the Fall after all other Iris have finished blooming. Occasionally they will also flower in midsummer. They are hardy anywhere.

3 of Each \$10.00
